

Florent MATHEZ

At the end of my studies I would like to focus on WEB development, more precisely on front-end development.

Experiences

Tutored project, Memoclub – Grenoble, France

During my second year of DUT Informatique, we had the opportunity to realize an official project for a company. The company chosen for our project is Memoclub. We provide them with sales based on their three flagship products.

Company Internship, Le Petit Chaperon Vert – Cran-Gevrier, France

Three 2-week internships at AMAP “Le Petit Chaperon Vert” during my first year of high school in order to understand how a company works on a daily basis but also to prepare myself to work for a company.

Manager of a web radio station

During a personal project, in order to get a glimpse of the radio world, I tried to manage a small web radio.

Company Internship, NovaMotion – Annecy, France

Discovery internship at NovaMotion in order to discover the professional world around computing, more precisely motion capture.
